Winter: Contrasted
Spring : Mild and humid
Summer: Temperate
Autumn: Very wet

WINEMAKING

Harvesting: Mechanical
Pressing: Direct with pneumatic press and juice selection
Settling : Cold
Fermentation : In temperature-controlled stainless steel vats
Ageing : On fine lees in stainless steel vats

TASTING NOTE

Boxwood and acacia flowers are the dominant aromas in this Sauvignon from the Loire Valley. Fresh and slightly acidic on the palate, this beautifully textured wine is delicious. The varietal side of the Sauvignon grape reveals itself in a beautiful blend of floral notes. Fresh and varietal, just the way we like them.

WINE PAIRINGS

Drink it on its own as an aperitif or with seafood, a charcuterie platter or a young Comté cheese.
